UI/UX & Prototyping

PROFILE

Creative and curious fresh graduate who blends a Political Science background with hands-on training in UI/UX design and web development. I enjoy understanding people and turning ideas into clean, usable, good-looking interfaces — from first sketch and wireframe to a responsive HTML, CSS and JavaScript build. Eager to join a team where I can learn quickly and contribute to real products.

EDUCATION

B.A. in Political Science

Kalyani University

Built strong research, critical thinking, writing and communication skills.

UI/UX Design Course

Webskitters Academy

User research basics, wireframing, prototyping and interface design.

WHAT I CAN DO

Design

Wireframes, user flows and clickable prototypes with a user-first mindset.

Build

Responsive, clean front-end pages using HTML5, CSS3 and Bootstrap.

Interact

Intermediate JavaScript for menus, forms, sliders and simple interactivity.

DESIGN APPROACH

- Understand the user first, then design with purpose.
- Keep layouts simple, accessible and mobile-friendly.
- Iterate from sketch to wireframe to prototype to code.
